Employee Internet and Other Electronic Resources Policy

PURPOSE:

Quest Academy (the "School") recognizes the value of computer and other electronic resources to improve student learning and enhance the effectiveness of the School's administration and operation. To this end, the School has invested substantial fiscal resources in order to establish a network and provide computers and other electronic resources for its employees' use in fulfilling their responsibilities. School's Board of Directors (the "Board") encourages the responsible use of computers; computer networks, including e-mail and the Internet; and other electronic resources to promote and achieve the School's mission and goals.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to completely control. Additionally, improper use of the School's electronic resources by employees has the potential to damage the School's image and to impair its electronic resources, thereby causing financial harm to the School. Therefore, the Board adopts this policy governing employees' use of electronic resources and requires employees to agree to these terms in order to establish standards and provide guidance to employees. Employees shall not engage in any activity that does not conform to this policy and any additional guidance established by the Board and/or the Principal from time to time.

POLICY:

At-Will Employment

Nothing in this policy is intended to create additional rights for any employee or to otherwise alter or amend the at-will nature of the employment relationship between the School and any employee.

The School's Rights

It is the School's policy to maintain an environment that promotes ethical and responsible conduct in all network activities by staff and students. The School recognizes its legal and moral obligation to protect the well-being of students in its charge and to preserve the integrity of its electronic resources. To this end, the School retains the following rights:

1. All data, files, programs, and materials downloaded with or used, sent, receive, or stored upon the School's electronic resources are the School's property, and the School may deal with such items as it deems appropriate.
2. The School may log network use and monitor server space utilization by users and assumes no responsibility or liability for files deleted due to violation of server space allotments.

3. The School may remove a user account on the network with or without notice.
4. The School may monitor all of user's activities on the School's electronic resources, including but not limited to real-time monitoring of network activity and/or maintaining a log of Internet activity for later review.
5. The School may provide internal and external controls of network usage as appropriate and feasible, including but not limited to restricting online destinations through software or other means.
6. The School may limit or restrict, with or without notice, access to the School's electronic resources for those who do not abide by this policy or other direction governing the use of the School's electronic resources.
7. The School may determine, in its sole discretion, what materials, files, information, software, communications, and other content or activity are permitted or prohibited.
8. To delete or remove, with or without notice, any files, programs, data or other materials from any of the School's electronic resources.
9. To provide additional policies or guidelines regarding acceptable use of electronic resources.

Employees' Responsibilities Regarding Students' Use of Electronic Resources

Employees who supervise students, control electronic equipment, or otherwise have occasion to observe student use of said equipment online shall make reasonable efforts to monitor the use to assure that it conforms to the mission and goals of the School and to any acceptable use policy governing students' use of electronic resources. Staff should make reasonable efforts to become familiar with the Internet and its use so that effective monitoring, instruction, and assistance may be provided.

User Responsibilities
